

Lazy

Margot & the Nuclear So and So's

The winter you started cussing
And talking about the moon
Flying saucer blues
And past lives

The winter you started drinking
And waking up at noon
Things you didn't used to do

But I love you so who cares
If you're lazy

That winter when you stopped going
Out into the streets
Built saucers out of sheets
To blast off in

But I love you so who cares
But you love me so who cares
If we're crazy
If we're crazy
If we're crazy
And my we got a good thing going
We just hang around
Fuck it off all day

But I love you so who cares
You love me so who cares
Life is easy so who cares
If we're lazy
If we're lazy
