

In Your Constellation

Maria McKee

It comes so easily to you
And I'm fighting my way through
What you are, what you see
Finding life among the weeds
And I'm face-down in the dirt

It comes so easily to you
And I've got so much to prove
What you see, what you are
Take your seat among the stars
And you make me feel alright

When the floodgates open wide
I wonder what creeps back inside
I'm a stranger in the intimate dimension

When my feelings get in touch
What happens if I feel too much
And I'm strung out, hung up
In your constellation

It comes so easily to you
And I've got so much to prove
What you see, what you are
Take your seat among the stars
And you make me feel alright

When the floodgates open wide
I wonder what creeps back inside
I'm a stranger in the intimate dimension

When my feelings get in touch
What happens if I feel too much
And I'm strung out, hung up
In your constellation

Ooh, it comes so easily to you
