

# My First Night Without You

Maria McKee

I've put your things away  
All the things that you left me behind  
So lost throughout the day  
Numb, the body you've left me behind

How many times in one day  
Will my cut feel the tearing away

On my first night without you  
(My first night without you)  
And the shock still a dream it's killing me  
(My first night without you)  
Ebbing out, ebbing in  
The agony of breathing without you

I've locked my heart away  
Just a day, just to get through a day  
The storm I've kept at bay  
Pounds and pummels my heart anyway

How many times in one life  
How, so violent, so deep

On my first night without you  
(My first night without you)  
And the shock still a dream it's killing me  
(My first night without you)  
Ebbing out, ebbing in  
The agony of breathing without you

On my first night without you  
(My first night without you)  
And the shock still a dream it's killing me  
(My first night without you)  
Ebbing out, ebbing in  
The agony of breathing without you

On my first night without you  
(My first night without you)  
And the shock still a dream it's killing me  
(My first night without you)  
Ebbing out, ebbing in  
The agony of breathing without you

Lalala...  
(My first night without you)  
Lalala...  
(My first night without you)  
Ebbing out, ebbing in  
The agony of breathing without you
