

like u do

Marian Hill

I see you making all the right faces, I see you
I see you standing in the right places
You seem to always know the chord changes
You always end up where the big stage is
You always end up in my good graces

Lighting up the room like you always do
There are precious few who don't fall for you
Hanging by a thread when you turn to me
Slightly tilt your head, like you learned from me

Nothing new
Playing your part like you do, like you do
Here's to you
Breaking my heart like you do, like you do, like you do

Like you do, like you do, like like like like like you do
Like you do, like you do, like like like like like you do
Like you do, like you do, like like like like like you do
Like you do, like you do, like like like like like you do

I'd never felt such a rare feeling, I felt it
I felt my heart rise into the ceiling
You never wanted me to stop reeling
You always stack the deck if you're dealing
You always had to be the one steering

Lighting up the room like you always do
I was 22 when I fell for you
Never really felt like you fell for me
I'll give you a smile, but that's all you need

Nothing new
Playing your part like you do, like you do
Here's to you
Breaking my heart like you do, like you do, like you do

Like you do, like you do, like like like like like you do
Like you do, like you do, like like like like like you do
Like you do, like you do, like like like like like you do
Like you do, like you do, like like like like like you do

Like like like like like you do
Like like like like like you do
Playing your part like you do, like you do, like you do
Breaking my heart like you do, like you do, like you do

Nothing new
Playing your part like you do, like you do
Here's to you
Breaking my heart like you do, like you do, like you do
