

# Wish You Would

Marian Hill

I thought about it  
And we're both so young  
I really adore ya  
Already found the one  
I know she's there for you  
And you're doing your best  
But to tell the truth  
I can see you've been stressed

But does she get it?  
Are you understood?  
And are you ready  
To be there for good?  
I don't mean to pry  
I'm just thinking of you  
And I'm sure she's fine  
And you'll do what you do

Now you got someone else  
I wish you could  
See me watching your bed  
I wish you would  
Call me up on the phone  
I wish you could  
Take me back to your room  
I wish you would, I wish you could  
I wish you would, I wish you could

I thought about him  
And the things we felt  
I thought I doubt him  
But I'm overwhelmed  
When he tucks me in  
I can fall right to sleep  
But I'm losing it  
When I walk by your street

I know he gets it  
And I'm understood  
But am I ready  
To be here for good?  
I've been up all night  
And I'm thinking of you  
If you read my mind  
Wonder what you might do

Though I got someone else  
I wish I could  
Get you all to myself  
I wish I would  
Call you up on the phone  
I wish I could  
Take you back to my room  
I wish I would, I wish I could  
I wish I would, I wish I could

When I stare at you, it's unbearable

I'm not a sucker for higher things  
I fear the gods are conspiring  
And who am I to deny it?  
I never wanted someone like this  
Thought I could fight it  
But I'm getting tired and

Now you got someone else  
I wish you could  
See me watching your bed  
I wish you would  
Call me up on the phone  
I wish you could  
Take me back to your room  
I wish you would

Though I got someone else  
I wish I could  
Get you all to myself  
I wish I would  
Call you up on the phone  
I wish I could  
Take you back to my room  
I wish I would, I wish I could  
I wish you would, I wish you could

I wish I would, I wish I could  
I wish you would, I wish you could  
I wish I would
