

Truth or Dare

Marianas Trench

You follow me down to it,
Just follow me down to do it
Nobody will know how you come and you go for it
Not gonna get dangerous,
You not gonna worry bout' us
Somebody to give what you get
And you get what you need now

And these lights, big bright,
So let me show ya
So, so, so nice to know ya

It's as easy as,
1, 2, 3, do you see what I do
Truth or dare, you said double dare you
What do you mean, now I think I got it
One last breath and just spin the bottle now

*you know that you don't need to be so worried,
Even though below I'm still thinking about' it*

1, 2, 3, now double dare me as well
Truth or dare

dirty little secret, dirty little secret

This will be our little

dirty little secret, dirty little secret

This we be our little
You get to the slow to set,
Give it the trust to feel it
Give it the push and the pull and the forth and back

Your not gonna slow me down,
Not gonna hold you to it
I guess it depends, in the end
After all we're all friends here
Here

And these lights, big bright,
So let me show ya
So, so, so nice to know ya

It's as easy as,
1, 2, 3, do you see what I do
Truth or dare, you said double dare you
What do you mean, now I think I got it
One last breath and just spin the bottle now

*you know that you don't need to be so worried,
Even though below I'm still thinking bout' it*

1, 2, 3, now double dare me as well
Truth or dare

dirty little secret, dirty little secret

This will be our little

dirty little secret, dirty little secret

This we be our little

dirty little secret, dirty little secret

This will be our little

dirty little secret, dirty little secret

And this we be our little
