

# Just a Car Crash Away

Marilyn Manson

Love is a fire.  
Burns down all that it sees.  
Burns down everything.  
Everything you think  
Burns down  
Everything you say.

She blew me her death-kiss  
And the mouth-marks  
Bled down my eye,  
Like her dying  
On my windshield.  
I can already feel  
Her worms  
Eating my spine.  
So how can it be this lonely?  
Is this all we get  
For our lives?  
Is love only sweeter when  
One of dies?

Then I knew that our love was  
Just a car crash away.  
I knew that our love was just a car crash away.  
I knew that our love was  
Just a car crash away.  
I knew that our love was  
Just a car crash away.

Love is a fire.  
Burns down all that it sees.  
Burns down everything.  
Everything you think  
Burns Down  
Everything you say. [x3]

Love is a fire.  
Burns down all that it sees.  
Burns down everything.  
Everything you think  
Burns Down  
Everything you say.

[backup vocals]  
I knew that our love was  
Just a  
Car  
Crash  
Away.

I knew that our love was  
Just a  
Car  
Crash  
Away.

[repeat to end of solo]

Love is a fire.  
Burns down all that it sees.  
Burns down everything.  
Everything you think  
Burns Down  
Everything you say.

Love is a fire.  
Burns down all that it sees.  
Burns down everything.  
Everything you think  
Burns Down  
Everything you say.
