

# We're from America

Marilyn Manson

We're from America, we're from America, where we eat our young  
We're from America, we're from America, it's where Jesus was born

We're from America, we're from America, where they let you cum on there faces  
We're from America, we're from America, we speak American

We don't believe in credibility, because we know that were fucking incredible  
We don't believe in credibility, because we know that were fucking incredible

I want to be a martyr don't want to be a victim,  
Be a killer with a gun so they call me a hero,  
Want to be a martyr don't want to be a victim,  
Be a killer with a gun so they call me a hero

God is an excuse  
God is an excuse  
God is an excuse  
God is an excuse  
God is an excuse  
God is an excuse  
God is an excuse  
So sing it with me

We're from America, we're from America, we're from America, you can sing it with me  
We're from America, we're from America, we're from America, you can sing it with me

We're from America

We don't like to kill our unborn, we need them to grow up and fight our wars

We don't like to kill our unborn, we need them to grow up and fight our wars

We believe in everything we say, we say it because we believe it  
We believe in everything we say, we say it because we believe it

We're from America, we're from America, we're from America, you can sing it with me  
We're from America, we're from America, we're from America, you can sing it with me

We're from America, you can sing it with me,  
We're from America, you can sing it with me,

We're from America, were from America, we turn literature into litter  
We're from America, were from America, we believe in being a quitter

I'm in recovery  
I'm in recovery  
I'm in recovery

We're from America, we're from America, from America, so sing it with me,

We're from America, we're from America, we're from America, you can sing it  
with me  
We're from America, we're from America, we're from America, you can sing it  
with me  
We're from America, you can sing it with me  
We're from America, you can sing it with me

We eat our young  
We eat our young  
We eat our young  
We eat our young  
We eat our young  
We eat our young  
We eat our young  
We eat our young  
We eat our young  
We eat our young  
We eat our young

We're from america
