

# Don't Lie

Mario Vazquez

I hear the words you speak it's clear of every time  
The middle, the end, the sound to every line  
But do they mean a thing when defenses are stopping you  
From saying everything that I need you to

Do you know what it's like, when it kills, it's a crime  
When the one that you want is only speaking in empty rhymes

'Cause I want you, want you, want you, I fall in love with you  
So don't tell me, tell me, tell me the sun will see the moon, oh  
h  
When I need you, need you, need you, don't make me wait in line  
Just be cool tonight, don't lie, oh

Do you remember the first time when it was you and I  
When lonely days and memories brace for time  
And everything in front of us was ours to lose, yeah  
But somewhere along the way you had to choose

Do you know what it's like, when it kills, it's a crime  
You tell me you want me but I don't see you standing by

'Cause I want you, want you, want you, I fall in love with you  
So don't tell me, tell me, tell me the sun will see the moon  
But I need you, need you, need you, don't make me wait in line  
Just be cool tonight, don't lie, no, no

Yeah, I thought you could be something more like the light in my life  
But these barricades they get bigger and bigger, time passes by  
There's a [Incomprehensible] that knows and I can't  
stop myself, I keep falling through  
Just say anything right now, that should do, oh

Oh, don't leave me, we'd be losing

Do you know what it's like, when it's gone, it's a crime  
And it's so obvious but we know that truth's not kind

But I want you, want you, want you, I fall in love with you  
So don't tell me, tell me, tell me the sun will see the moon  
When I need you, need you, need you, don't make me wait in line  
Just be cool tonight, don't lie, just be cool tonight, don't lie
