

Scandal

Marion Raven

Like a thief in the black night you stole my heart
And there was nothing I could do
It belongs to you
It belongs to you now

Let's run away
And leave it all
What a mess we're gonna make
I live for this mistake
Let's go today
With you I'll fall
What a Scandal we will be
But you can handle me

Haven't you heard?
What a Scandal it will be

Like a fool in bright daylight I lost my way
Now there is only one thing true
I follow you
I follow you now

Let's run away
And leave it all
What a mess we're gonna make
I live for this mistake
Let's go today
With you I'll fall
What a Scandal we will be
But you can handle me

Can you handle me?
I'm not gonna break
I live for this mistake

Let's run away
And leave it all
What a Scandal it will be
But you can handle me

Let's run away
And leave it all
What a mess we're gonna make
I live for this mistake
Let's go today
With you I'll fall
What a Scandal we will be
But you can handle me
