

When You Come Around

Marion Raven

Hey it's been a while since I've seen you around
My phone has been quiet, it has not made a sound
And what you took like I hardly remember?
Think the last time I saw you was back in November

It's a good thing that some things never change
We're always back to normal, when I see your face
It's a good thing that some things never change
We're always back to normal, when I see your face

I'll be here
When you come around
When you come around
I'll be here
When you come around
When you come around

When I'm in my car some days I wanna drive
Down to your town just to see if you're alive
I always turn around, before I make it that far
I don't know what you're doing, and I don't know where you are

I'll never stop
I'm thinking of you and waiting for you
I am never better than when I am with you

It's a good thing that some things never change
We're always back to normal, when I see your face
(Always back to normal, when I see your face
Always back to normal, when I see your face)

I'll be here
When you come around
When you come around
I'll be here
When you come around
When you come around
I'll be here
When you come around
When you come around
I'll be here
When you come around
When you come around

(I'll be here) It's a good thing that some things never change
(When you come around
When you come around)
(I'll be here) We're always back to normal, when I see your face
(When you come around
When you come around)
(I'll be here) It's a good thing that some things never change
(When you come around
When you come around)
(I'll be here) We're always back to normal, when I see your face
(When you come around
When you come around)

I'll be here...
