

My Children

Marion

When the day passes days
And nothing else
Still you can laugh
At yourself
Oh
I want
I want...
No-one ever comes round
To pick you up
When you're feeling down
Oh
I want
I want...
You to babysit my children
While I go out on the razzle
Save me
Save me from my children
Save me
Save me from my children
Now you say things
That don't make sense
So don't even use your brain on them
Oh
I want
I want...
You to babysit my children
While I go out on the razzle
Save me
Save me from my children
Save me
Save me from my children
Save me
Save me from my children
You know it's true
You know I care about you
You know it's true
You know I care
You know it's true
The world and you...
You know it's true
You know I care about you
You know it's true you know I care
Oh I
I care
Oh I
I care
