

# Good Night To Be Lonely

Mark Chesnutt

Tired of channel surfing  
El Camino ain't working  
It's Monday night and I'm hurtin' for company  
Bummed a ride to the hideaway  
I'm the only guy in the place  
Bored silly wasn't gonna stay  
Then she walked in, heaven sent  
And it occurs to me

What a good night to be lonely  
Somebody's looking out for me  
Oh what an opportunity  
Right out of the blue  
Is it luck or a twist of fate  
Doesn't really matter either way  
It's a good night, a good night to be lonely

Dollars worth of quarters  
played some songs and ordered  
One for me and one for her as I tipped my hat  
Said that she felt restless  
Just moved here from Texas  
That's when I suggested  
Maybe she could dance with me  
She said thought you'd never ask

What a good night to be lonely  
Somebody's looking out for me  
Oh what an opportunity  
Right out of the blue  
Is it luck or a twist of fate  
Doesn't really matter either way  
It's a good night, a good night to be lonely

She's following I'm leading  
And it feels like I'm dreamin'

What a good night to be lonely  
Somebody's looking out for me  
Oh what an opportunity  
Right out of the blue  
Is it luck or a twist of fate  
Doesn't really matter either way  
It's a good night, a good night to be lonely
