

# I Just Wanted You To Know

Mark Chesnutt

Are you alone? Can you talk to an old friend?  
Right or wrong, I had to hear your voice again

Unwritten law, protocol  
Says to leave the past alone

I just wanted you to know  
Sometimes driving home at night  
I let your memory take control  
And you? re sitting by my side

I turned up the radio  
Cruised down old route 59  
Girl it? s solid gold, well I? ll let you go  
I just wanted you to know

Through the vine, I heard your life has turned out well  
As for mine, you know it? s really hard to tell

? Cause now and then, what might have been  
Interferes with what might be

And I just wanted you to know  
Sometimes driving home at night  
I let your memory take control  
And you? re sitting by my side

I turned up the radio  
And cruise down old route 59  
Girl it? s solid gold, well I? ll let you go  
I just wanted you to know

Please don? t cry, I? ll say goodbye  
And I won't call you anymore

But I just wanted you to know  
Sometimes driving home at night  
I let your memory take control  
And you? re sitting by my side

I turned up the radio  
Cruised down old route 59  
Girl it? s solid gold well I? ll let you go  
I just wanted you to know
