

## It Sure Is Monday

Mark Chesnutt

With the alarm clock ting-a-ling ringin' in my head  
I woke up dog tired, beat down, half dead  
Tryin' to recover from another wild weekend  
Chuggin' down coffee while I should have been sleepin'

Well it sure is Monday idn't it now  
I gotta myself through the week somehow  
I had a ball Friday, Saturday and Sunday  
But it's all over now and it sure is Monday

Oh, I got to the job site at a quarter past nine  
And somehow I stayed awake till lunch time  
And then I caught a little nap, stretched out in my truck bed  
My feet still twitchin' to the music in my head

Well it sure is Monday, ain't it the truth  
I partied too hardy, now I'm payin' my dues  
I had a ball Friday, Saturday and Sunday  
But it's all over now and it sure is Monday

Well it sure is Monday, ain't it a sin  
I gotta work my way through the week again  
I had a ball Friday, Saturday and Sunday  
But it's all over now and it sure is Monday  
Yeah, it's all over now and it sure is Monday.
