

Just Right For You

Mark Chesnutt

In my mind I'm thinner and I'm taller
Younger too with a little more hair
I saw myself going so much farther

Oh but girl there you are
Smiling at the plain old me
Those honest eyes
In love with what they see
And I go from perfect to just right for you

In my mind I'm rugged and I'm charming
The hero who might save the day
Kinda' like a modern Gary Cooper

Oh but girl there you are
Smiling at the plain old me
Those honest eyes
In love with what they see
And I go from perfect to just right for you

Oh but girl there you are
Smiling at the plain old me
Those honest eyes
In love with what they see
And I go from perfect to just right for you
