

Come To Me

Mark Lanegan

Come to me
Light on my shoulder
come to me
burn your starry crown
my dark angel
I've tried, I can't get over
'Cause when I think I'm climbing
I'm really so far down
Time takes a while, to break ya
And now, only fire can wake ya
Oh weeping willow
Coughing up my heart
ask god to see my shadow
And kept us apart
Through my mind's every riot, or revelation
you've just now gone
You've just now gone, as I arrive
At every station
Come to me
Either early or late
I've learned this by habit
now I know how to wait
come to me
come to me
come to me
