

Wheels

Mark Lanegan

Light ahead proves that the wheels broke down
Here I am, still hangin' on, well alright

Shadows only disappear
Just look around there's no one here
A little spirit turned my light on out and now

Can never be no doubt
You got to walk in the morning sun
And got to smile at everyone

Go my love on your way to bigger and
Bright better days
And I'll go crazy for it all

And I won't stop lovin' you, baby
Oh, yeah, here I am
This feeling inside a body

Light ahead proves that the wheels broke down
Here I am, still spinnin' round

Shadows only disappear
Just look around there's no one here
A little spirit turned my light on out and now

Can never be no doubt
I'm gonna wait till the stars come down
My little love smiles on a wing

For all a raindrop and tears not wasted there
Been pourin' down all day
Runnin' round catchin' 'em, baby
Run around catchin' 'em, baby

Whichever way they fall
Won't stop lovin' you, baby
Whichever way you go, oh, yeah

Here I am, here I am
Just runnin' round catchin' 'em
Whichever way they fall all night long
