

When It's in You

Mark Lanegan

When it's in you
You won't wanna leave this living so soon
When it's in you
And now it's brand new
The days roll on like sugar so sweet
When it's in you

The scarecrow stands at the top of the stairs
And I shoot
Let the radio play methamphetamine blues
Until I lose
Now that it's in you

When it's in you
You won't wanna leave this living so soon
When it's in you
Everything brand new
The days roll on like sugar so sweet
Everything brand new

The scarecrow stands at the top of the stairs
And I shoot
Let the radio play methamphetamine blues
Until I lose
Now that it's in you
Now that it's in you
