

Baby I'm No Good

Mark Owen

I set out to wander
Up lonely man street
Where faith and devotion,
I would hopefully meet
I went there with nothing
Packed as light as I could
And you begged me to stay,
Though you knew,
Baby I'm no good
I'll love you forever
You'll stay in my heart
But all that I wanted
Was doomed from the start
I thought you could save me
Well if anyone could
But I knew that you knew all along
Baby I'm no good
Not once was I faithful,
I cheated and lied
I know that you loved me
But my hands, they were tied
I followed the voices
Like a weak man should
And I guess they were right about me,
Baby I'm no good
In the end when I've fallen
Face down in the rain
And you come back to ask me
What I lost, what I gained
I'd probably answer
I did all that I could
But it wasn't that much I'm afraid,
Baby I'm no good
No it wasn't that much I'm afraid
Baby I'm no good
