Pretty Green

Mark Ronson

I've got a pocket full of pretty green -I'm gonna put it in the fruit machine -I'm gonna put it in the juke box -It's gonna play all the records in the hit parade -This is the pretty green - this is society You can't do nothing - unless it's in the pocket Oh no -

I've got a pocket full of pretty green I'm gonna give it to the man behind the counter He's gonna give me food and water -I'm gonna eat that and look for more -

And they didn't teach me that in school -It's something that I learnt on my own -That power is measured by the pound or the fist -It's as clear as this oh -

I've got a pocket full of Pretty Green!
