

Smile

Markéta Konvičková

I want you so
I want your loving
I wanna cry when I'm down and drunken
I have my days
No I'm not perfect
What's left from life when two love birds are separate

I want you so
I want your loving
I wanna know I'm the one when you're dreaming
I have my doubts
It ain't so easy
I close my eyes when my heart drives me crazy

You said you wanna see my inner side
I'm trying to let you see
You said you never heard my broken heart
I know I want to believe

I can see your smile
Looking to your eyes
I just wish you hold me in your arms
And never let me go

I can see your smile
Looking to your eyes
I just wish you hold me in your arms
And never let me go

I want you so
I want your loving
One look at you makes me feel I was floating
I gonna try follow my instincts
You're on this ride to discover life secrets

I want you so
I want your loving
I wanna share every moment of silence
I make mistakes
No I'm not perfect
Trying to find one to love of my living

You said you wanna see my inner side
I'm trying to let you see
You said you never heard my broken heart
I know I want to believe

I can see your smile
Looking to your eyes
I just wish you hold me in your arms
And never let me go

I can see your smile
Looking to your eyes
I just wish you hold me in your arms
And never let me go

I can see your smile
Looking to your eyes
I just wish you hold me in your arms
And never let me go
