

# Facedown

Markus Schulz

Waking up on the pavement  
Living large like we made it  
You and I nothing but wasted time  
Never know until we get there  
Take a hit when life's not fair  
You and I sleeping under neon lights

Shut your eyes  
We could stay here forever  
I'll try to hold us together  
We could stay here facedown  
All this time we've been searching for pleasure  
I'll try to hold us together  
We could stay here facedown

I see it all in slow motion  
Feel the future sinking in  
From these highs  
Nothing can sink us now

Shut your eyes  
We could stay here forever  
I'll try to hold us together  
We could stay here facedown  
All this time we've been searching for pleasure  
I'll try to hold us together  
We could stay here facedown
