

# Thank You

Marlisa

You took  
The only other half that made me whole  
Left a scar inside my soul  
That made me want you more  
Every day,  
I hated whatever that won't kill me  
It never made me stronger  
I got only weaker  
But I'm getting better  
Cause I know...

Someday I'm gonna find  
Somebody who will thank you for  
Thank you for letting me go  
For letting me go  
For letting me go  
Honey just so you know  
I'm gonna find someone  
Who'll thank you  
Thank you for letting me go  
For letting me go  
For letting me go  
For letting me go

You gave  
You gave me every reason to hate life  
Cause I've always believe  
In you my darling  
But you lied  
But my love, don't worry I'll be fine  
So don't look back  
Cause I know that this feeling  
Won't stay any longer  
And eventually

Someday I'm gonna find  
Somebody who will thank you for  
Thank you for letting me go  
For letting me go  
For letting me go  
Honey just so you know  
I'm gonna find someone  
Who'll thank you  
Thank you for letting me go  
For letting me go  
For letting me go

For letting me be  
And for setting me free  
For giving me a chance  
To love myself  
And find that someone  
Who'll love me in the end  
You let me go...

Someday I'm gonna find  
Somebody who will thank you for

Thank you for letting me go  
For letting me go  
For letting me go  
Honey just so you know  
I've already find that someone  
So thank you  
For letting me go  
For letting me go  
For letting me go  
  
For letting me go...
