

My Little One

Marmalade

She moves, she grooves, she hides the hours
With a little bit of loving from her mother
My little one, she never bothers
About the things that worry you and me

She sings this little song it flows along
It's quite a song
I know she's gonna be as free as yesterday
And I know in my mind it's gonna be that way

Do I do I do I do that day
This is the way she blows her cares away
Do I do I do I do that day
This is the way she blows her cares away

My little one you must be tired
With all the fun and games you had today
I lie awake and dream about you
And what you'll be when you're as old as me

She sings this little song it flows along
It's quite a song
I know she's gonna be as free as yesterday
And I know in my mind it's gonna be that way

Do I do I do I do that day
This is the way she blows her cares away
Do I do I do I do that day
This is the way she blows her cares away
