

Do you ever hold the flame?  
Leave a light on  
Will we recall their names?  
Leave a light on  
Deserter frequencies  
There's no escape

Did we forget about fatality?  
Where the wheels keep turning  
In sugarland  
We've lost control in all this urgency  
And the fires keep burning  
In sugarland

Our voyeurism won't ever set us free  
A state emergency, not for you or me

Did we forget about fatality?  
Where the wheels keep turning  
In sugarland  
We've lost control in all this urgency  
And the fires keep burning  
In sugarland

(Come to me, why won't you come to me?)  
(A blackened heart, a blackened heart)
