

We Are the Sea

Marnie

Under pentangle star our eyes flicker light from the distance
Life is a sea to me so harvest all you need to make a difference

In the wild we are free, this is all that we're meant to be
Leave all your fear behind, it's a hundred times better
I promise you, I promise you

Believe with full hearts
Origins and new starts
In you there's something magical
Our eyes under the pentangle
Begin again, the distance free
Leave it all behind, we are the sea

I hear that home is calling
Oh Lord, won't you take me back to sea

Nothing can stop us now our eyes glitter pride and joy fever
Life is a sea to me so stand and face the wave that it delivers
In the wild we are free, this is all that we're meant to be
Leave all your fear behind, it's a thousand times better
I promise you, I promise you

Believe with full hearts
Origins and new starts
In you there's something magical
Our eyes under the pentangle
Begin again, the distance free
Leave it all behind, we are the sea

I hear that home is calling
Oh Lord, won't you take me back to sea
