

# Miss You Love You

Maroon 5

This has not been easy  
This has been hard  
I am scarred  
And I do not know what to do with you.

Go inside, kiss your mouth with my lips  
Grab your hips, can't remember why I fell in love with this.

But I miss you, I love you  
It's a shame you can't stay away from me this time cause oh no  
You beg me you ask me to kiss you and hug you  
You wont be getting my affection again cause oh no  
I don't need you tonight

Who do you think you are?  
No one cares about a name without a face,  
So don't go shooting up the place  
Make no mistake the loves not real  
Cause the love that I got is deeper so much deeper than you could ever feel

I miss you, I love you  
It's a shame you can't stay away from me this time cause oh no  
You beg me you ask me to kiss you and hug you  
You wont be getting my affection again cause oh no  
I don't need you tonight

It was really nice to know you  
But, there's nothing left to show you  
I got bills to pay get out the way it's time to move on  
And even with your boyfriend, will never be the same again  
Discuss me over cigarettes and say to him...

I miss you, I love you  
It's a shame you can't stay away from me this time cause oh no  
You beg me you ask me  
To kiss you and hug you  
You wont be getting my affection again  
Cause oh no, I don't need you  
And I miss you, I love you  
It's a shame you can't stay away from me this time cause oh no  
You beg me, you ask me to  
To kiss you and hug you  
You wont be getting my affection again  
Cause oh no, I don't need you tonight
