

Your Hands

Marsha Ambrosius

Your hands hold the small of my back
My body reacts yeah
You know just what I need and where to be (your hands)
Lead the way, I'll follow you wherever you lay
'Cause here up high, here we fly together you and I
Oh why must you lead me on if I'm want you want just say it
Don't lie.
Here's my heart now don't you break it baby
I'll leave it here in your hands
Said my heart I leave it here in your hands
My broken heart I leave in your hands
I leave it here in your hands
Don't you break it baby

Kiss here on my lips I've never felt like this
I let down my guard and then I fall for you
Here my cry, I'm yearning for you deep inside
Let me reach for the stars, be where you are
All we can do is try baby

Baby you do anything to satisfy me baby
And I will give you anything you need
Baby when you touch me there with your hands
I love it when you touch me baby (your hands)
Caress me up and down make me say (your hands)

I leave my love your hands
My love, my soul
I leave my broken heart in your hands
So baby wont you save me
My love I leave it in your hands baby
