

It's never  
Never gonna happen again  
I'll try to remember your name  
Flings are not going to back again

Don't try to reach my heart  
You know it wouldn't last  
Just go away and try to be a man  
You didn't pess to test  
So don't you try to blame  
I'll never be you toy or fucking game

It's critical  
It' tragical  
It won't happen again, again  
It's critical  
It' tragical  
It won't happen again, again

It's never  
Never gonna happen again  
I'll try to remember your name  
Flings are not going to back again

I know you will be back  
Don't waste your time all days  
Just get a life  
And don't come back again  
I wouldn't let you know  
That what we had was fun  
i'll never be you toy or fucking

It's critical  
It' tragical  
It won't happen again, again  
It's critical  
It' tragical  
It won't happen again, again

Never  
Never gonna happen again  
I'll try to remember your name  
Flings are not going to be back again

Never  
Never gonna happen again  
I'll try to remember your name  
Flings are not going to be back again

It's never  
Never gonna happen again  
I'll try to remember your name  
Flings are not going to be back again
