

All I Ever Know

Martin Jondo

One, Two, Three, Four...

And all I ever know is the fight for justice saying
All I ever know now is the fight for peace
And all I ever know is the fight for justice saying
'Cause all I ever know now is the fight for peace

So when them come to your brain
Want to drive your insane
All dark doubts quarreling in your head
Them oppress wanna beat you down
All them oppress wanna beat you down and down but

All I ever know is the fight for justice saying
All I ever know now is the fight for a peace
All I ever know is the fight for justice saying
All I ever know now is the fight for a peace

Circumstances of today
Hardly give you no chance to stay
But never lose your faith and run their race
'Cause this just bearing more evil pain
And when it's born then you're all insanse
And when it's born then you're all insanse and crying

All I ever know is the fight for justice saying
All I ever know now is the fight for a peace
And all I ever know is the fight for justice saying
And all I ever know now is the fight for peace
So love and peace be all around us
So love and peace shall be all around us now
So love and peace shall be all around us
Freedom and justice deep within
So love and peace shall be all around us
freedom and justice deep with, deep with, deep within...
