

Springfield

Martin Tungevaag

What do you feel if I say you can come to my paradise
and where will you go if I say the mountain's full-
like snowed wood ice

Some sorrow is over we're ready for the new life
anyone can do it like us
Some sorrow is over time to do it once more
screw this up cause we blow it up

Springfield, springfield,
feel the power come inside
This would be the year
my time you can't deny
Springfield, springfield,
We go all the way to town
This would be the year
my time will never stop

Don't look back
Always straight
We will all reach the top one day
Just see what we have done
its for fun
its all we have to say

Some sorrow is over we're ready for the new life
anyone can do it like us
Some sorrow is over time to do it once more
screw this up cause we blow it up

Springfield, springfield,
feel the power come inside
This would be the year
my time you can't deny
Springfield, springfield,
We go all the way to town
This would be the year
my time will never stop
