

# Love Changes Nothing

Martine McCutcheon

On & on  
It must be better this way  
Love never dies it just fades to gray  
It doesn't matter what you say

You're the only one  
In this age of wisdom  
Who can understand  
How to turn me on  
There's been so many times  
Oh I wish I could go someplace  
Steal a moment's grace  
Talk to you face to face  
I only wish we can do  
The human thing

On & on  
It must be better this way  
Love never dies it just fades to gray  
It doesn't matter what you say  
I believe you  
Whatever keeps pullin' me back  
Is at the heart of the matter  
It's a matter of fact  
It must've been a love attack  
Love changes nothing

I was your angel  
I was you angel and you trusted me  
I gave you all I had but it wasn't to be  
Oh you trusted me  
I tried to be like a rock for you  
Everything I did I just had to do  
On & on it must be better this way  
Love will never die just fade to gray  
Like a rock for you  
It doesn't mean that I love you less  
We got lost in the wilderness  
Wish we could do the human thing  
On & on  
It must be better this way  
Love never fades it just fades to gray  
It doesn't matter what you say  
I believe you
