But Only In My Dreams

Marty Robbins

I have held you in my arms
I have known your sweetest charms
Two hearts in love, at least that's how it seems
But only in my dreams

Though my days are often blue Night are always spent with you There I know your love is really true But only in my dreams

I have dreamed a dream that I couldn't have in love Just to have you for my own

I have known what life is for Rich and gay with full reward All that I could ever ask and more But only in my dreams

I have dreamed a dream that I couldn't have in love Just to have you for my own

I have known what life is for Rich and gay with full reward All that I could ever ask and more But only in my dreams
