

My Blue Heaven

Marty Robbins

You're the only star in my blue heaven
And you're shining just for me
You're the only star in my blue heaven
And in dreams your face I see.

You're the guiding light that brightens up the night
Till you haven't sight my heart is lonely
You're the only star in my blue heaven
And you're shining just for me

(You're the only star in my blue heaven
And you're shining just for me)

You're the guiding light that brightens up the night
Till you haven't sight my heart is lonely
You're the only star in my blue heaven
And you're shining just for me...
