

# You Only Want Me When You're Lonely

Marty Robbins

You only want me when you're lonely  
When no one else wants you, it seems  
And even though, you call me darlin'  
I know I'm never in your dreams

I'm just someone you always turn to  
Each time your new love turns you down  
You only want me when you're lonely  
When there's nobody else around

You only want me when you're lonely  
I only see you now and then  
And though I'm sayin', I won't forgive you  
I'm glad when you come back again

Why do I'd let you fool me, darlin'  
The way you break my heart's a crime  
You only want me when you're lonely  
But dear, I want you all the time
