

# You Can Walk All Over Me

Marty Stuart

Never thought I'd fall this far again  
When we met I thought we'd be just friends  
Now I'm in love so blind that I can't see  
And you can walk all over me  
Never thought I'd ever settle down  
Hang my hat up in the same old town  
Thought I'd always be just wild and free  
But you can walk all over me

Take my heart, break my heart  
That's all right with me  
Take my name, I'm not ashamed  
To let the whole world see  
If that's how it's gotta be  
Then you can walk all over me

Some say love is just a crazy game  
Always looking for someone to claim  
That's the way I guess it's supposed to be  
So you can walk all over me

Take my heart, break my heart  
That's all right with me  
Take my name, I'm not ashamed  
To let the whole world see  
If that's how it's gotta be  
Then you can walk all over me  
If that's how it's gotta be  
Then you can walk all over me
