

Vampires In Love

Marvelous 3

September '57
It was a really strange year
That's when I met heaven
And all the smoke came clear
I couldn't see it coming
I was a very dumb kid
Nobody ever kissed me
Quite like the way that you did

And now you know that I suck at this
And you suck at it too
And now we're nothing more than vampires in love

And I'm wide awake
And your wide awake
And I don't think that I'm getting tired at all

This is the brightest sunlight
My shades will do me no good
I ain't a morning person
But I'd be one if I could
And cause of us I just stay up at night
And watch stupid movies till the TV is white
So we're nothing more than vampires in love

And I'm wide awake
And your wide awake
And I don't think that I'm getting tired at all
