

## Steady Breathing

Mary Black

Hush now sleep is coming  
I'll keep my hand on your brow  
Good night steady breathing now

It took a lot for you to say  
So proud and strong but not today  
There's so much that I can do  
But I can't take this away from you

I say, hush now sleep is coming  
I'll keep my hand on your brow  
Good night steady breathing now

We've been through the how and why  
It only serves to make us cry  
Tomorrow you must brave the fight  
But I won't leave alone tonight

Hush now sleep is coming  
I'll keep my hand on your brow  
Good night steady breathing now

Behind those eyes I know so well  
The struggle now a living hell  
Unspoken words but the truth remains  
The enemy is running through your veins

And you have so very much  
A children's love and a lovers touch  
Hold on strong and don't let go  
Tonight the stars are shining  
Just for you, you know

I say, hush now sleep is coming  
I'll keep my hand on your brow  
Good night, steady breathing now  
Hush now sleep is coming  
I'll keep my hand on your brow  
Good night, steady breathing now  
Steady breathing now
