

Earth Song

Mary Hopkin

I have climbed your crystal mountains
And I have walked up and down your highways
I have walked up and down your highways
And it's a long long time I've been wondering
Where it is that I am going

I have seen your sun's reflection
And I have have built a boat to catch it on the water
To catch it on the water
And it's a long long time I've been wondering
What it is that I resemble

We have gathered all together
And we have surely loved one another
We have surely loved one another
And it's a long long time We've been waiting
For your secret night song

Oh show me your simplicity
And I may find you are a part of me
And I am a part of you
And I'm afraid, I'm afraid of your big white roaring ocean
Oh but I want to be invisible

I have climbed your crystal mountains
And I have walked up and down your highways
I have walked up and down your highways
And it's a long long time I've been wondering
Where it is that I am going
