

# Somebody

Mary Mary

Everybody has bad days  
When they feel like no one cares  
Call your friends in the middle of the night  
And they just can't be there  
I know someone who's available  
And He'll answer every time you call  
He won't ever leave you alone  
That's just the kind of friend you should know

Anybody know somebody  
Someone who will love anybody  
Even if they're just a nobody  
I know somebody, somebody

Let me offer you a suggestion  
And I'll leave without no doubt  
A love that reaches far and wide  
That's where my faith lies  
Let me tell you why  
Cause every time I'm sad and lonely  
He comes and puts His arms around me  
Cause God's love is the first  
And it is the last so if you ask

Oh I got a friend who loves me so  
You ask how much I'll never know  
And since I've found this love  
I want to share it with everyone, oh

Oh do you know?  
Oh do you know? Oh!
