

# Teach Me Tonight

Mary Wells

Did you say I've got a lot to learn?  
Well, don't think I'm trying not to learn  
Since this is the perfect spot to learn  
Trying to find somebody to teach me tonight

We'll start with the A B C of it  
Then we'll roll down to the X Y Z of it  
Help me solve the mystery of it  
Oh, come on and teach me tonight

Well the sky's a blackboard (and I don't mean jungle) high above you  
And if a shooting star goes by  
I'll use that star to write I love you  
A thousand times across the sky

One thing isn't very clear, my love  
Should the teacher stand so near, my love?  
Graduation's almost here, my love  
Yeah, yeah teach me tonight

Well the sky's a blackboard, high above you  
And if an astronaut zooms by  
I'll reach and grab him real fast  
Then write I love you a thousand times across the sky

One thing isn't very clear, my love  
I know you're wondering how I switched that key, my love  
Graduation's almost here, my love  
Teach me  
Teach me  
Come on  
And teach me tonight
