

# What's Easy For Two Is Hard For One

Mary Wells

Well well well well

Let's get together and go for a walk in the park

And while we're walking we can steal a little kiss in the dark

I wanna walk with you (I wanna walk with you)

I wanna talk with you (I wanna talk with you)

But it's up to you to say "Come on baby"

If you don't hurry up I'll go crazy

Cause a walk in the park all alone is just no fun

What two can easily do, what two can easily do

Is so hard to be done by one

I'm sure that you know that I love you with all of my heart

But a love that's true really takes two to start

I wanna do my share (I wanna do my share)

To show you that I care (to show you that I care)

Cause a one-sided love will never do

You gotta show me that you love me too

Cause falling in love all alone is just no fun

One can build a love affair slowly

Two can build a love affair fast

One can make a love get started

Two can make it last

So come on and take me by the hand

Lead me up to the preacher man

Together we can do all the things that should be done
