

Just Try

Mason Jennings

You dark and golden dream
Now I know what they mean
When poets break their pens on you

We are lovers in disguise
I can see it in your eyes
This is calling for a kiss on you

Just try, just try
Letting love go by
Just try and see how that flies

When hope has lost its way
And clouds are here to stay
The sun gathers up its fun on you

Just try, just try
Letting love go by
Just try and see how that flies

Just try and say
That this happens every day
Go on and lie
Just try

Just try and say
This this happens every day
Go on and lie
Just try
Go on and lie
Just try
