Inner Demon

Massacre

I infest your mind You're not part of me I possess your soul Get the fuck out of me

Twisted voice from deep inside Twisting schemes in my mind No room for reason Screams my inner demon Inner demon

I enhance your hate You just bring me pain I distort your love It's already been slain

Broken feelings transform my thoughts Mistaken senses begin to rot No chance to reason With my inner demon

Omni-presence felt - everywhere it dwells Sanity departs - domination starts - ya Inner demon

I control your life You've already begun I command your being It's already been done

Grotesque visions become so real Distorted dreams now prevail I now have reason To unlock this demon

I have opened your mind I unite with you I now own your soul I give myself to you

Understand what it's all for Realise it's how I endure Done for this reason Release my inner demon Demon Demon Demon
