

## Bulletproof Love

### Massive Attack

I'm not good in a crowd  
I got skills I can't speak of  
Things I've seen will chase me to the grave  
I'm not good in a crowd  
I got skills I can't speak of over there  
Things that I've seen will chase me to the grave  
Plan with your hands tied  
Face in the sand flies  
Stumble the dunes  
Complain to the moon  
Backs to the wheel  
This granite's too short  
Take it, they give it  
Or rivet for rivet  
I will move for my family  
A Bulletproof Love  
How does it feel  
The weight of the steel  
The weight of the steel  
The flat of the bay  
How does it feel  
To kneel at defeat  
To kneel at the feet  
Of the choices you make  
I'm not good in a crowd  
I got skills I can't speak of  
Things I've seen will chase me to the grave  
Backs to the wheel  
This granite's too short  
Take it, they give it  
Rivet for rivet  
I build for my family  
A Bulletproof love
