[3D]

Take me where the tides start
And I can pull you into me
You're really crushing gravity
Your corona is reaching consequences
?? my ??

It all comes back to me

??
Collects like dust around my head
And lightly rings and clings
Can't be shakin' off the ??
Like characters we ?? and ??
You're ?? to ?? you
There's nothing I can save for this
No fold it up in 2 of this
No ?? string
No flight-path
No cream

Comes back to me
Comes back to me
It all comes back to me
It all comes back to me
It all comes back to me
Comes back to me
Comes back to me
Don't kiss me

Infrared to find you
I fly in to remind you
I burnt my universe for you
Attracted to opposing poles
As you know the proverb goes

It ?? you history
No use to me, no mystery
No use to me, no use to see
No use to me, no use to see
No use to me, no use to see
Comes back to me
No use to me, ?? to me
