

## Command Your Fate

Master

I have spoken all these years  
I'm not joking you should face your fear

Free expression live today  
Don't be frightened command your fate

We should fight intrusion  
All the freedoms lost  
Cancel any sanctions  
Silence must be fought

Free expression live today  
Don't be frightened command your fate

The fatalist is preaching  
No one changes fate  
So why go on living  
It's a stalemate

American corruption  
Violates human rights  
Everyday a murder  
At a certain time

I have spoken all these years  
I'm not joking you should face your fear

Free expression live today  
Don't be frightened command your fate
