

## Every Dog Has Its Day

Master

Have you seen the violence on the streets it's clear  
Racial prejudice is on the rise this year  
Children trying to escape from poverty  
No one is safe from the effects of this disease

Tension is building they're armed and complete  
Are people willing to end these beliefs

Children trying to escape from poverty  
No one is safe from the effects of this disease

Is man really equal or equally afraid  
Is man just a devil or a victim of pride
