

## Baby Let It Be

Masterboy

Baby let it be, let it be  
Baby, Baby let it be, let it be  
Baby, Baby let it be, let it be  
Baby, Baby let it be

Come on Baby let it be

Tell me that you know what you're doing  
Show me that you keep control  
You say that's the way you're choosing  
Cause you want to free your soul

But you do what you do and you're playing with fire  
Don't burn your hands as you're taking a chance  
You're on a trip to get higher and higher  
Baby can't you see

Guess you think you can't be wrong  
Feeling cool, feeling strong  
In the long run you will loose  
And that's not the way to choose  
Change your style and turn back  
Live your life on the right track  
Life is precious don't you break it  
If you get a chance then take it

But you do what you do and you're playing with fire  
Don't burn your hands as you're taking a chance  
You're on a trip to get higher and higher  
Baby can't you see
